

## Welcome to City College

In the fall semester we opened our beautiful new Career Technology Center (CTC) and this spring we begin construction of our Arts and Humanities, Business Technology, and Math and Social Sciences buildings.

As our student enrollment grows, there is an increasing demand for more courses and expanded programs. The new buildings will provide the classrooms and campus improvements to help you reach your academic and career goals. Please pardon any temporary inconveniences caused by our campus-wide construction.

Although community colleges have been hit hard by repeated budget cuts, we are working hard to ensure you have access to our nearly 1500 classes at a time that works into your busy schedule.

Many campus services and assistance are available to you. Please take the time early in the semester to visit our many support services such as financial aid, tutoring, counseling, transfer planning and career guidance offices.

Also take the time to get involved in the many student-based organizations on campus. Become a leader in Associated Student Government, attend seminars and events sponsored by World Cultures, or learn about a new class or program on campus.

Our new City College website at [www.sdcity.edu](http://www.sdcity.edu) has the most current information about classes, events and student resources.

I look forward to seeing you on campus.

Terrence J. Burgess, Ph.D.  
President, San Diego City College
