As President Beebe shared in his Safe and Sound Initiative, City College takes safety seriously. In an effort to strengthen safety measures throughout our campus and the District, the San Diego Community College District has partnered with Catalyst Consulting to complete a District-Wide Security Master Plan. This town hall meeting is an opportunity for our valued faculty, staff, and students to voice their ideas for safety improvements in a structured setting.

To encourage broad participation, a two-hour session is planned on two different days, Monday and Tuesday. Each town hall meeting will begin with a 30 minute presentation from Catalyst Consulting. The remainder of the time will be dedicated to a question and answer period, allowing the consultants to hear the safety recommendations and suggestions from our campus constituency.

We will ask the following questions to facilitate the structured discussion:

1. Do you have any specific security/safety concerns on campus?
2. Do you have any recommendations or ideas to improve safety and security on campus?
3. What is your impression of campus at night, particularly with regard to faculty and students?
4. Do you have any personal history or experience of altercations with students on campus and how effectively were those incidents addressed?
5. What are your thoughts and opinions of existing safety and security policies and training on campus?
6. What do you think is the general impression of College PD among the students and staff on campus?

We value your input in this process and look forward to your feedback. If you are unable to attend either session, please respond to these questions in email and send them to Seher Awan, VP of Administrative Services, at sawan@sdccd.edu. We encourage everyone to attend and share their recommendations.

For more information, contact: Seher Awan | sawan@sdccd.edu

REMINDER: Do you have the college police dispatch on your cell phone: (619) 388 6405?
