**“Foundation funds are available to all students who seek and strive for higher education. Where would so many of our students be without City College? With the financial help of others, we can award more scholarships each year, and continue making a positive difference in lives.”**

## City College Foundation — Campus to Community

Established in 1972, the San Diego City College Foundation Board of Directors is comprised of college faculty and staff, and distinguished business and community leaders. Working

together, the main objectives of the Foundation are to provide student scholarships and to expand culturally-diverse program opportunities for the college community.

As a nonprofit, 501(c)(3) organization, contributions are tax deductible. Additionally, fully 100% of your tax-deductible donation goes directly to scholarships or programs, with no administrative costs deducted.

**“It is important to raise awareness of the diverse educational and scholarship opportunities available to all San Diego City College students. Our nursing department has several scholarship opportunities. We recently established a scholarship in memory of Dr. Jo-Ann Rossitto, a much loved professor and director of our program for 18 years.”**

— *Debbie Berg, MSN, RN, Associate Dean/Director, City College Nursing Education Department*

## City College Foundation — at Work

- Provides direct financial support for students to pursue educational opportunities and academic advancement
- Serves as a forum to support the goals and objectives of the college to achieve excellence in student-centered education, and to support institutional priorities as defined in the college Master Plan
- Maintains a vital, ongoing relationship with community, government, business and college leaders to help determine and meet local needs
- Develops collaborative relationships with other agencies and institutions to expand financial resource opportunities to support college-bound students

**“I love City College! Working together, the faculty and staff provide many resources for students. The scholarship program allowed me to remain a full-time student, work 20-hours a week, purchase textbooks early so I could stay on course with my classes and graduate before I expected. My life-long career goal is to organize cultural and political events to create an international exchange network of artists and thinkers.”**

— *Jazmin Morelos, City College Scholarship Recipient*

## City College Foundation — Supporting Students

As the primary fundraising entity for the college, all dollars raised through the Foundation go directly to support students and culturally-diverse program development. Our foremost priority is to increase the number of scholarships so more students can receive a quality education every year.

Currently, more than \$150,000 is awarded to more than 250 recipients each year.

## ***Student Scholarships — Our Future Leaders***

The Student Scholarship Program provides a wide variety of scholarships to all students for books, fees, tuition and other expenses. Students apply for scholarships relevant to their academic major, career objective or individual interest.

Scholarship funds are provided through the generous donations of faculty, staff, retirees, alumni, and community and business leaders. New scholarships are established as memorials or honorariums in appreciation of a respected professor, or to celebrate a specific field of study. With the ongoing efforts of the Foundation, the number of scholarships and applicants increase each year.
