

○ **Nursing Process**

1pt History:

Age _____ Gender _____ Marital Status _____ Legal Status _____

Admit Date _____

Events leading to Hospitalization:

3pts DSM IV Dx:

Axis I:

Axis II:

Axis III:

Axis IV:

Axis V:

4pts Current Psychotropic and anti-EPS Medications

| Sx of disease that bother client: | | | | |
|------------------------------------------|------------------------------------------|-------------------------------------------|---------------------------------------------|---------------------------------------------------------------------------------|
| Name/Dose | Receptor sites affected & how | Desired Effects use client's words | Unwanted effects for which to assess | Observations noted <i>today</i> indicating desired &/or side effects |
| Trade Name | | | | Subjective |
| Generic Name | | | | Objective |
| Dose | | | | |
| Date ordered | | | | |

5pts Itemized Mental Status Examination (*identifies at least 5 abnormal behaviors*)

| Category | Sub-category | Observed behavior | NA | Yes | No |
|---------------------------------------|-------------------------------------------|------------------------------------------------|----|-----|----|
| APPEARANCE | | 1. Unkempt, unclean, disheveled | | | |
| | | 2. Clothing/grooming atypical | | | |
| | | 3. Unusual physical characteristics | | | |
| BEHAVIOR | Posture | 4. Slumped | | | |
| | | 5. Rigid/Tense | | | |
| | Facial Expression | 6. Anxiety, fear, apprehension | | | |
| | | 7. Depression, sadness | | | |
| | | 8. Anger, Hostility | | | |
| | Suggests | 9. Absence of feeling, blandness | | | |
| | | 10. Atypical, unusual | | | |
| | General Body Movements | 11. Accelerated, Increased speed | | | |
| | | 12. Decreased, slowed | | | |
| | | 13. Atypical, unusual | | | |
| | | 14. Restless, fidgetiness | | | |
| | Speech | 15. Rapid speech | | | |
| | | 16. Slowed speech | | | |
| | | 17. Loud speech | | | |
| | | 18. Soft speech | | | |
| 19. Mute | | | | | |
| 20. Atypical quality: Slurred/Stammer | | | | | |
| Doctor Patient Relationship | 21. Domineering, Controlling | | | | |
| | 22. Submissive, dependent | | | | |
| | 23. Hostile, challenging | | | | |
| | 24. Suspicious, guarded, evasive At start | | | | |
| | 25. Uncooperative | | | | |
| FEELING (AFFECT AND MOOD) | | 26. Inappropriate | | | |
| | | 27. Labile | | | |
| | | 28. Flat | | | |
| | | 29. Elevated | | | |
| | | 30. Hostile | | | |
| | | 31. Apprehension | | | |
| | | 32. Sad | | | |
| PERCEPTIONS | | 33. Hallucinations | | | |
| Thinking | Intellectual Functioning | 34. Impaired LOC | | | |
| | | 35. Impaired attention span | | | |
| | Orientation | 36. Impaired abstract ability | | | |
| | | 37. Impaired calculation ability | | | |
| | | 38. Impaired intelligence | | | |
| | Memory | 39. Disoriented to time | | | |
| | | 40. Disoriented to place | | | |
| | | 41. Disoriented to person | | | |
| | Insight | 42. Impaired recent memory | | | |
| | | 43. Impaired remote memory | | | |
| | Judgment | 44. Blames others/circumstances for problems | | | |
| | | 45. Denies problems | | | |
| | Thought Content | 46. Impaired ability to make routine decisions | | | |
| | | 47. Impaired impulse control | | | |
| | | 48. Obsessions/Compulsions | | | |
| 49. Phobias | | | | | |
| 50. Depersonalization | | | | | |
| Stream of thought | 51. Suicidal Ideation | | | | |
| | 52. Homicidal Ideation | | | | |
| | 53. Delusions | | | | |
| | | 54. Associative Disturbances | | | |

LOVE AND BELONGING

Interpersonal

1pt Star at least two strengths

2pts Subjective: *Comments made re: significant others, relationships?
To whom does client talk when upset?*

3pts Objective:

- 1) *Observed Interactions or **lack of interactions** with a) staff b) SN c) **other clients**?*
- 2) *Eye contact* 3) *Social skills* 4) *Style (passive/aggressive/assertive)*

Group Identification

1pt Subjective: *Group with which client feels most identified.*

1pt Objective: *Observed cultural practices, health beliefs*

Spiritual

1pt Subjective: *Values or beliefs impacting health, conflicting values*

1pt Objective: *Observed religious practices*

SELF ESTEEM

Body Image

1pt Subjective: *Statements about body, health, illness ...*

1pt Objective: *Posture, Appearance (dress, grooming, hygiene)*

Self Image

2pts Subjective: *Statements about self*

2pts Objective: *Ability to achieve goals*

Ability to Adapt and Cope with Stress

Subjective:

1pt Stressors: *Client comments about current concerns?*

1pt Coping: *What client says he/she does about these problems?*

Objective:

1pt Acute Stressors? *Factors preceding ↑ anxiety, (behaviors noted below)*

1pt Observed Coping:

- 1) *What you see the client doing **today** to decrease anxiety.*
- 2) *How is this **different** from what client says?*

1pt Chronic stressors 1)How disease & meds affect thinking & behavior
2)lack of resources 3) etc

1pt Historical Coping methods: Include both positive (Ex:Takes meds) and negative (Ex:Denial) both from the chart and past observations.

SUCCESS IN ROLES

1pt Subjective: Roles (family, occupational, community)
Self expectations related to role performance

2pts Objective: Developmental Stage (Erickson)
Behaviors indicating success or failure in developmental stage

5pts Nursing Diagnosis: NANDA Diagnosis including:
Problem (.1), Etiology accessible to nursing intervention (.1), Three symptoms (*from assessment above*) that document problem (.3)

3pts Outcome:
States a change in Nursing Diagnosis / symptoms (.1), Achievable on day of care (.1), Specific enough that outcome met could be answered 'Yes' or 'No' (.1)

6pts Interventions: Appropriate to outcome, Specific enough that anyone could repeat

- 1.
- 2.
- 3.

Evaluation:

1pt Outcome met/not met

3pts Behaviors that document above decision

3pts How did client respond to each intervention? If not used, explain why.

- 1.
- 2.
- 3.
