

## Process Recording (PR)

**Purpose:** The value of this paper is in analyzing the interactions so the points are awarded more for being complete than being therapeutic; however, the expected level for successful clinical evaluation is that therapeutic responses and accuracy of analysis will achieve 80% by the second process recording. For socialization to be considered therapeutic, it needs to be identified and have a relevant rationale.

**1pt History:**

Age \_\_\_\_\_ Gender \_\_\_\_\_ Marital Status \_\_\_\_\_ Legal Status \_\_\_\_\_

Admit Date \_\_\_\_\_

Events leading to Hospitalization:

**2pts DSM IV Dx:**

Axis I:

Axis II:

Axis III:

Axis IV:

Axis V:

**2pts Current Psychotropic and anti-EPS Medications**

Sx of disease that bother client:				
Name/Dose	Receptor sites affected & how	Desired Effects use client's words	Unwanted effects for which to assess	Observations noted <i>today</i> indicating desired &/or side effects
Trade Name				Subjective
Generic Name				Objective
Dose				
Date ordered				
Trade Name				Subjective

**2pts List and use one intervention (First PR focuses on establishing rapport and second PR will focus on working or termination phase)**

<p><b><u>Client Nonverbal.</u></b>  <i>1/2 pt for each observation to a maximum of 4pts</i></p>	<p><b><u>Client Verbal</u></b>  <i>1/2 pt for each comment</i>          If client is not verbal, paper may need to be completed over more than one interaction. If client talks a lot, focus on the more therapeutic sections of the interaction. Indicate breaks in the conversation by drawing a line across all columns and explaining.</p>	<p><b><u>Nurse Verbal</u></b>  <i>1/2 pt for each comment</i>  <b>Note:</b>          1<sup>st</sup> PR – you must analyze 14 interactions (nurse verbal responses)          2<sup>nd</sup> PR – you must analyze 22 interactions (nurse verbal responses)</p>	<p><b><u>Nurse Thought</u></b>  <i>1/2 pt for each thought to a maximum of 10pts</i></p>	<p><b><u>Analysis</u></b>  <i>1/2 pt for each Decision: T/N/T</i>  <b>If therapeutic-</b> 1/2 pt for each <b>Label:</b> (ex. Verbalize the implied)          1 pts for each <b>Rationale</b> (ex: reinforces reality without challenging client)          1/2 pt for each <b>Documentation</b> of source (ex 1:87)  <b>If Nontherapeutic:</b> 1 1/2 pts for <b>restatement</b> – No rationale or documentation necessary</p>
