

Interested in a career in Math, Engineering or Science?

The San Diego City College MESA Program is the program for you!

MESA stands for **Mathematics, Engineering, Science Achievement**. It is the best academic support and transfer program for students in Math, Engineering and Science majors. *The secret is "culture"!* The MESA Program empowers students with the learning culture needed for success in higher education, including strategies for approaching the learning plus the attitude and mindset needed for learning.

More than a program, *MESA is family*. The MESA Program has a Center – a *home* on campus where MESA students get the help and support they need to be successful in college, including:

- ♦ **Tutoring** for math, science and engineering classes
- ♦ **Counseling** assistance for creating education plans, applying for transfer, exploring graduate school and career opportunities, and identifying other services needed
- ♦ **FREE resources** for students (i.e. class textbooks, computers and calculators)
- ♦ **Scholarship information** and help to apply for scholarships (*money!*)
- ♦ **Summer research and internship opportunities** across the country
- ♦ **Connections to industry** to meet professionals and learn about companies and careers

But the **BEST** part of the MESA Program is the MESA students! The MESA Program serves 200 students each year who have common majors, common classes and common interests. Students take pride to be in the MESA Program, they care about each other, and they support each other to be successful. Beyond developing scholars, MESA develops leaders!

MESA helps students to achieve goals they never imagined. *What will be your MESA story?*

How to apply for the MESA Program:

Academic requirement - Students must have a math milestone level of 50 (M50) or have completed *intermediate algebra* (Math 96) **AND** must intend to *transfer* to a 4-year institution in a math-based major.

Registration - Students must be registered for classes at City College.

Application – Visit the MESA Program center to complete a MESA application

Deadline to Apply – 3rd Friday in Fall & Spring semesters. *Apply early!*
