Associate in Arts in Studio Arts for Transfer Degree:

The Associate in Arts in Studio Arts for Transfer degree program is designed to prepare students to meet admission at the California State University transfer admission requirements.

Award Notes:

Students are required to complete a maximum of 60 CSU transferable units with a minimum overall grade point average of 2.0.

1. Completion of 60 semester units or 90 quarter units that are eligible for transfer to the California State University, including both of the following:

- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education – Breadth Requirements.
 - A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.
2. Obtainment of a minimum grade point average of 2.0.

ADTs also require that students must earn a “C” or “P” or better in all courses required for the major or area of emphasis.

Note: Completion of the California State University American Institutions graduation requirement is strongly recommended prior to transfer.

Program Goals:

The purpose of this Associate in Arts degree program in Studio Arts is to offer an organized course of study that will prepare students intending to major in Studio Arts at the California State University.

Program Emphasis:

The Associate in Arts in Studio Arts for Transfer program emphasizes preparation for the major in Studio Arts at the California State University.

The Associate in Arts in Studio Arts for Transfer is intended for students who plan to complete a bachelor’s degree in Studio Arts or a related major in the California State University (CSU) system. It is accepted by some but not all CSU campuses. Students who complete this degree and transfer to a participating CSU campus will be required to complete no more than 60 units after transfer to earn a bachelor’s degree. It may not be appropriate preparation for students transferring to a CSU campus that does not accept the degree.

Note: Students who plan to complete this degree should consult a counselor and visit www.assist.org for additional information about participating CSU campuses as well as university admission, degree and transfer requirements.

Transfer Information

Students planning to transfer to a four-year college or university should complete courses required for the university major and the general education

pattern required by that transfer institution. See catalog TRANSFER INFORMATION section. Additional courses may be required to meet university lower-division requirements. **Course requirements at the transfer institution are subject to change and may be verified by a counselor or by consulting the current university catalog. Many Baccalaureate in arts degrees require third semester competency in a foreign language. Consult the current catalog of the transfer institution and consult with a counselor.**

Description

Biology is a natural science that focuses on physical and chemical processes of living organisms. This discipline explores how organisms acquire and use energy to maintain homeostasis, how they reproduce, and how they interact with each other and their environment. Scientific processes are emphasized as a means of answering these biological questions. Biologists rely heavily on a chemistry foundation since living organisms are chemical systems.

The Biology program serves three areas of study. Biology provides a broad background of studies for the biology major preparing for transfer to a four-year institution. The biology program offers support courses in human anatomy, human physiology, and general microbiology which may be used to satisfy prerequisites for nursing programs and other allied health fields. The biology program provides courses in natural science to fulfill general education requirements.

The three associate degrees in biology require completion of the courses listed below. Additional general education and graduation requirements for the associate degree are listed in the catalog. The Associate Degree requires a minimum of 60 units.
