TUESDAY, MAY 18

Reimagining AAPI History Through Children's and Young Adult Literature

12:00 - 1:00pm

[Registration: buff.ly/3uhW00U](https://buff.ly/3uhW00U)

Through the course of this talk, we will examine a wide variety of children's and young adult literature to see how Asian Americans have been historically depicted. In so doing, we will note how Asian Americans are often placed in settings of their own communities' histories in the United States and also how contemporary authors have centered Asian presence in conventional American history. We will conclude by looking at the implications of this representation in the genre of children's and young adult literature, in the classroom, and in the larger social consciousness.
