18th Annual San Diego City College Student Project & Research Symposium

April 21st, 2022

Dear Students, Campus Colleagues and Community Friends:

It is my great pleasure to welcome students, faculty, staff and the community together to celebrate the San Diego City College Annual Student Project and Research Symposium. This “Celebration of Student Excellence” is a campus-wide event recognizing the outstanding achievements of our students and the dedication of our faculty to student success.

Each year the Symposium exceeds its success from the previous year in attendance and participation. This year, the Symposium is presented Live on the AH/BT Quad with AH 306 and AH 314 for special exhibits. It will also be a live YouTube Broadcast. For 2022, 60+ students representing more than 40+ academic majors, showcase their best work through 30+ poster presentations, numerous oral presentations, radio/TV excerpts, Multi-media presentations, Spoken Word, performances, demonstrations, and Fine Art displays.

I welcome you to explore and learn more about our College mission and values and understand why our campus community is so proud of our students. Although we come from different places, we join together here at City College focused on one goal: student success. Collaborating together, the City College Symposium melds the extraordinary efforts of faculty mentors and hard-working students to create a body of research work with endless possibilities for advanced studies across many disciplines.

On behalf of our entire college, I commend the Symposium Committee, volunteers and staff for the planning and collective efforts in bringing this signature event to life for the campus and community to enjoy.

Sincerely,

Ricky Shabazz, Ed.D.

President

San Diego City College

rshabazz@sdccd.edu

Dear City College Community and Guests:

It is with great pride that we welcome you to the 18th Annual City College Student Project and Research Symposium. Today you will tap deeply into the spirit of City College, and it is going to be a great experience for you. As a visitor, you will see, hear and feel the blossoming talents of many of our finest students, who have proudly brought their creative work to our San Diego City College YouTube channel to share with you - *their college family and community friends*. You will marvel at the discipline, dedication and hard work that have been invested in their projects. And you will be inspired by the enthusiasm and inventiveness that permeates every display and performance.

This Symposium will highlight a multitude of research questions, showcase inquiry, critical analyses and scholarship. What does the symposium represent to us at City College?

- First and foremost, a vibrant campus community actively engaged in the pursuit of knowledge, the research process, creativity and excellence.
- The breadth of experiences and opportunities available to students - whether they're in physical or life sciences, mathematical pursuits or creative and performing arts.
- The inclusivity and diversity of our community.
- Our college commitment to student learning realized.
- Respect and support of our student achievements.
- A realization that there are no boundaries on what individual students can either learn or become at City College.
- That there are no limits! This Symposium is but a first step for students as they continue their quest for knowledge and future achievement.

Today you will become an important player on our stage, in some ways as important as the presenters themselves! As proud as they may be about their work, you see, until today it has largely been unexpressed, unseen, unappreciated by others. And students, like any other performers, need to play to an audience. Indeed, it's you – *their audience*, who gets to spark the real fun today, and ignite the joy of sharing, and fan the flame of pride and self-confidence. So please, everyone, jump right in and bring your excitement and enjoyment for all of us to share. Make it a point to pause often among the displays, introduce yourself to a proud but nervous presenter or performer, ask them about their work or future plans, and sprinkle a handful of compliments as you pass. Your applause will last them a lifetime!

We invite you to help judge the presentations. At the information table (in our Zoom room link) are judging rubrics and ballots. The overall award will be given by President Shabazz. The Science award by Dean Leticia Lopez, and the Fine Arts award by Dean Jeanie Tyler. Special Achievement awards are given by the organizing committee. Your help, even as a guest, will validate the selection process.

We're so glad you're here - *enjoy the Symposium!*

Symposium Organizing Committee:

Kim La Rue | Graphic Artist | Photographer
Patricia Fernandez, Supervisor Duplicating

Symposium Hosts

San Diego City College was honored to be selected by the national Council on Undergraduate Research (CUR) to participate in its *Program on Institutionalizing Undergraduate Research* – a program sponsored by the National Science Foundation. Participation in the CUR program has enabled City College to build upon existing research activities – including this Symposium and broaden the institutional culture of research. One of only 64 schools selected nationally, City College was the only community college participating from the West Region.

With mentoring from CUR, a campus-based Undergraduate Research Collaborative (URC) was created to promote undergraduate research awareness and interest among students, faculty and administrators. At City College, undergraduate research is defined as an inquiry or an investigation conducted by a student in collaboration with a faculty mentor. Undergraduate research provides opportunity for the intellectual growth of students via exploration and application of existing knowledge that may also lead to an intellectual or creative contribution to the discipline. City College is poised to increase opportunities for engagement in regional and national discussions of trends in higher education and new research directions, including partnering with other institutions and pursuing external funding. The ultimate goal is to have City College be the community college model for undergraduate research.

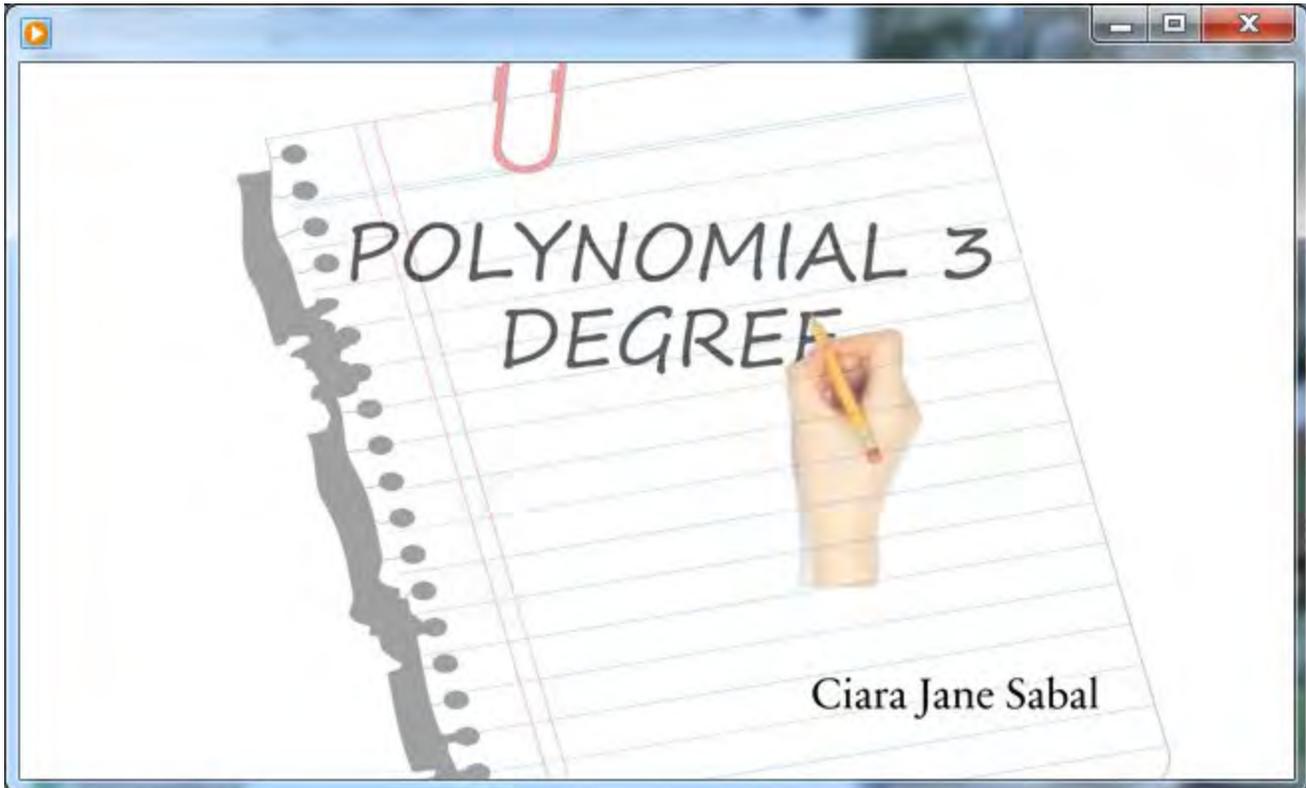

Our thanks and appreciation to our faculty mentors for supporting students in the pursuit of excellence.

Alicia Canales Esparaza/Kiera Feighan-Patrizi-Sleep Deprivation

What is Sleep Deprivation?

- ❖ Sleep deprivation is a condition in which a person is not receiving adequate sleep to the point that it affects their overall health
- ❖ It can affect the immune system, cardiovascular system, hormone levels, the brain, memory, and many other reported complications

Your Body On SLEEP DEPRIVATION

- COGNITIVE FUNCTION**
Sleep deprivation affects attention, learning, and problem-solving.
- IMMUNE SYSTEM**
Sleep deprivation weakens the immune system and increases the risk of infection.
- APPETITE & METABOLISM**
Sleep deprivation affects appetite and metabolism, leading to weight gain and an increased risk of diabetes.
- SKIN**
Sleep deprivation increases the effects of aging.
- MOOD**
Sleep deprivation can lead to irritability, depression, and anxiety.
- HEART HEALTH**
Sleep deprivation is linked to high blood pressure, heart disease, and stroke.
- CANCER RISK**
Sleep deprivation is linked to an increased risk of cancer.

And so what is sleep deprivation sleep deprivation is a

The Symposium Organizing Committee would like to acknowledge the essential contributions made by students, faculty, staff and administrators to ensure the quality and success of the Symposium. We are grateful for everyone's support and participation.

A special thank you to: Dr. Ricky Shabazz - President of City College; Matilda Chavez – Vice President; Deans Jeanie Tyler and Leticia Lopez – co-sponsors of this event; Cesar Gumapas Public Information Officer; the Academic Senate as co-sponsor of the Symposium; Associated Student Government; Transfer and Career Center; Patricia Fernandez Digital Print Production; Kim La Rue | Graphic Artist | Photographer; student Videographers Susana Serrano, Philip Salata, Josh Hernandez; and a special thanks to Victor Chen Website Administrator.

We are also grateful for the support and guidance of the Institutional Assessment Committee in our collective efforts to both demonstrate and improve student learning.

We wish to again thank all of the contributors to this event. We salute you! This program may not include some late additions and performances - unconfirmed at press time. We encourage you to stroll the grounds and seek out these fine later additions - and welcome them aboard!
